RELEVANT EXPERIENCE

Flutter Developer @Remoto

Enero, 2020 - Present // Remoto

- > Development of native mobile applications using Flutter, with attractive user interfaces and optimal performance on multiple platforms (iOS and Android).
- > Work closely with designers and backend teams to integrate APIs and web services into applications, achieving full functionality and a smoother user experience.
- > Implementation of unit and integration tests to ensure the quality and stability of the code.
- > Active participation in project planning and review meetings, providing ideas and solutions to improve efficiency and user experience.
- > Collaboration with a multidisciplinary team to develop custom mobile applications for clients in different industries.

Hispano Solution @Flutter Developer.

Enero, 2021 - August 2022 // Remoto

- > Development and maintenance of native mobile applications using Flutter, complying with quality standards and deadlines.
- > Work closely with designers and other developers to implement attractive and functional UI/UX designs.
- > Improved performance of existing applications, optimizing code and resolving performance issues.
- > Collaboration with the quality control team to identify and fix errors and usability issues.
- > Participation in code review meetings and contribution of suggestions and improvements to ensure the quality and readability of the code.

OPENSOURCE PROJECTS

Flutter Catalog | Github, Playstore

- > Created a beautiful catalog of designs with over 20 different screens which combines different patterns of interaction with a consistent visual language using flutter.

Login Catalog | Github, Playstore

- > Built a catalog of over 8 unique production quality login and signup experiences with flutter to help developers kickstart their apps faster.

OTP Textfield | Github, Package

- > Built a flutter package which makes the implementation of OTP seamless.

Case Study Mobile Apps

- > FoodyBite - built a restaurant finding app using flutter. (Github, Playstore)
- > Drop - built a fashion online store using flutter. (Github, Playstore)
- > Roam - built a UI/UX case study done by a designer for a travel advisory app. (Github, Playstore)
- > Nimbus - replicated a Wordpress theme using flutter web. (Github, Web)

SKILLS

Programming Languages
